

REMARKS

Claims 1-20 are pending in the application.

Claims 1-20 of the application are provisionally rejected under the judicially created doctrine of the obviousness type double patenting as being unpatentable over claims 1-22 of co-pending Application No. 2004/0125519A1, S.N. 10/331,280. A terminal disclaimer is attached to overcome this provisional rejection.

Claims 1-6 and 8-20 of the application are provisionally rejected under the judicially created doctrine of the obviousness type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. 6,437,953 in view of Germain et al. [US 6,734,769]. A second terminal disclaimer is attached to overcome this provisional rejection.

The submission of two terminal disclaimers (attached) to overcome the provisional rejection of claims 1-20; and the provisional rejection of claims 1-6 and 8-20 based on the ground of non-statutory double patenting overcomes the Examiners objections.

This amendment does not add, change or delete any claim and, therefore, a detailed listing of the claims in the application is not required.

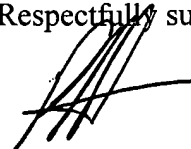

With the submission of the two terminal disclaimers, it is our understanding that claims 1-20 are now in condition for allowance. Early and favorable reconsideration is respectfully requested.

The commissioner is hereby authorized to charge any fees which may be required for the amendment, of credit any overpayment to Deposit Account No. 12-1185 of Leviton Manufacturing Co., Inc.

In the event that an extension of time is required to make this amendment timely filed, the Commissioner is requested to grant a petition for that extension of time which is required to make this amendment timely and is hereby authorized to charge any fee for

such an extension of time or credit an overpayment for an extension of time to Deposit
